First Announcement

# PSYCHOTHERAPY ASIA PACIFIC V

The 5th Congress of the Asia Pacific Association of Psychotherapists

Listening to the Heart of the East

April 5 - 7, 2008

Four Seasons Hotel, Jakarta - Indonesia

## A Word of Welcome

The psychotherapists of Indonesia have been honored with the task of hosting Psychotherapy Asia Pacific V and we extend a warm welcome to Jakarta in April 2008 to our colleagues in the region and beyond, and all who are professionally interested in this – and allied – fields. We hope to be able to set a stage to further consolidate and give firmer shape and meaning to our organization and its links to mental health and wellbeing enterprises galore. The scientific program will be designed to cover a wide area of contemporary concerns about appropriateness of theories, applicability and effectiveness of technique, emerging deviant patterns of individual and social behavior, psychopathology related to age group or social/ethnic group, to name just a few among the topics. As a conference theme, we have invented “Listening to the heart of the East” because we constitute a regional chapter, to direct a focus on local conditions and developments. It is meant to inspire and stimulate thoughts on understanding – and better understanding through listening and relating, to undergird appropriate communication and action. Such listening can probably not be generalized and must take local characteristic into account: traditional, ethnic, cultural, social, economic, and political. The theme is not meant so much as a call to the world at large, but mostly to the psychotherapists of “the East” themselves, to listen to the heart and mind of their patients where they are. The experiences thus gained can hardly fail to be an important contribution to the art and science of psychotherapy. – And we have a unique cultural program too in store for you. Whatever we can do to make your visit to Jakarta worthwhile! See you there.

D. Bachtiar Lubis, M.D.  
Chairman, Organizing Committee, PAP V

## Tentative Speakers:

D. Bachtiar Lubis (Indonesia)  
Ulrich Schnyder (Switzerland)  
Christopher Wurm (Australia)
